## Dr. Michael Enrico provides women's health care in Madelia

MANKATO (Jan. 7) — Mankato Clinic physician, Michael Enrico, MD, is providing obstetrical and gynecological care at Madelia Community Hospital & Clinic beginning January 10.

Dr. Enrico will be available for appointments the second and fourth Thursday of each month. His clinical interests include general gynecology, contraception, minimally invasive surgery and delivering babies. To best serve the diverse community of Madelia, Dr. Enrico speaks Spanish.

"I understand how important it is for women to receive health care services close to home and I look forward to serving the Madelia community," Dr. Enrico said. "I strive to build a strong patient-doctor relationship by listening to my patients, answering questions and providing high quality medical care."

Dr. Enrico joined the Mankato Clinic in 2016. Originally from Reno, Nev., he received his medical degree from the University of Nevada School of Medicine. He completed his residency at Oklahoma University.

"We are excited to have Dr. Enrico join our team to provide a vital service to our community and patients. His dedication to high quality health care and focus on the patient experience is exactly why we asked him to partner with us," said Jeff Mengershausen, CEO of the Madelia Community Hospital & Clinic.

People may call 507-642-5200 to make an appointment with Dr. Enrico.

### **About Mankato Clinic**

The Mankato Clinic was founded in Mankato, Minn., in 1916, by five area physicians who believed a comprehensive, multi-specialty group practice offered the best means of providing quality health care to the residents of southern Minnesota. The Mankato Clinic has grown to over 130 physicians and practitioners and employs over 750 people and is one of the only physician-owned and led medical facilities in the state of Minnesota.

### **About Madelia Community Hospital & Clinic**

Founded in 1918, Madelia Community Hospital & Clinic is an independent, nonprofit facility staffed by a team of medical professionals committed to providing health care of the highest standards to patients in the Madelia area. As a 25-bed acute care hospital, all primary health services are available including laboratory, radiology, physical therapy, home care, emergency room/urgent care and surgical care. The attached family clinic provides care for patients in all the seasons of their life.
