MCHC Conducts Community Health Needs Assessment Survey

Madelia, Minn. - Adults who live in the local area should have received a Community Health Needs Assessment survey in the mail recently from the Madelia Community Hospital & Clinic (MCHC). A survey was mailed to all local households in an effort to get feedback on how to improve the health of the residents in the Madelia area.

This survey is done only once every three years, so it is essential that community members respond. Completed surveys, can be returned to MCHC either in the mail, or by dropping it off at MCHC, Alliance Bank, or Pioneer Bank. An envelope was included for your convenience. If you prefer to fill out the survey online, an online survey can be accessed from the home page of our website at www.mchospital.org. Surveys are due by March 8th.

Responses will help us plan for the programs and services that are most needed to improve the health of area residents. The results of the survey will be published and posted on our website at: www.mchospital.org. Participation in the survey is voluntary. All answers are strictly confidential; no names will be linked to the responses. Thank you for your participation!

About Madelia Community Hospital & Clinic

Madelia Community Hospital & Clinic is an independent, nonprofit facility staffed by a team of medical professionals that are committed to providing health care of the highest standards to patients in the Madelia area. As a 25-bed acute care hospital, we offer all of the primary health services: Laboratory, Radiology, Physical Therapy, Home Care, Emergency Room/Urgent Care, and Surgical Care. Our attached family medical clinic also provides care for patients in all the seasons of their life. Over the years, we have proactively responded to the changing demands within the health care industry, which has ensured our ability to deliver up-to-date medical services, purchase advanced medical equipment, and provide complete and compassionate care to all who enter our facility.
