New Provider at Madelia Community Hospital & Clinic

Madelia, Minn. – The Madelia Community Hospital & Clinic is excited to announce the addition of Idil Mohamed, PA-C to our Family Medicine team. Idil has recently moved to Madelia, and is now seeing patients.

Idil graduated from Roosevelt High School in Minneapolis and earned her bachelor's degree in Health and Wellness/Pre-Nursing from the University of Minnesota–Minneapolis. She continued her education at the University of North Dakota in Grand Forks, earning a second bachelor's degree in Clinical Laboratory Sciences. She worked as a Clinical Lab Tech at Fairview Health Services in Minneapolis.

Idil returned to the University of North Dakota and completed her Master of Physician Assistant Studies with a focus on rural health. She is certified by the National Commission on Certification of Physician Assistants (NCCPA).

Idil enjoys working in family medicine, especially helping families manage diabetes and other chronic diseases. She is fluent in Somali and Arabic. Her interests include reading, being outdoors with friends, and watching movies. Idil is excited to be a part of the Madelia community.

About Madelia Community Hospital & Clinic

Madelia Community Hospital & Clinic is a private, nonprofit facility staffed by a team of physicians and medical professionals that is profoundly committed to providing health care of the highest standards to Madelia and surrounding communities. As a 25-bed acute care hospital, we offer all the primary health services, such as medical/surgical, pediatric, emergency care and more. In 2011, we expanded our services to include a family medical clinic which provides adolescent health, geriatric health, men's health, newborn health, pediatric health, preventative medicine and women's health. Over the years, we have proactively responded to the changing demands within the health care system, which has ensured our ability to deliver up-to-date medical services, purchase advanced medical equipment, and provide complete and compassionate care to all who enter our facility.
