Madelia Community Hospital Foundation Announces 2015 Healthcare Scholarships

Madelia, Minn. – The Madelia Community Hospital Foundation is pleased to announce that two \$500 scholarships are available for Madelia-area high school seniors who are pursuing a career in health care. Students must be accepted in an accredited associate or bachelor’s degree program to be eligible for the scholarship.

“The Madelia Community Hospital Foundation has been supporting local students for many years,” said Stacie Cook, Foundation Director. “Since 2007, more than \$8,000 in scholarships have been awarded to Madelia-area students. I urge students and their parents to check out the scholarship information on our website,” she said.

Madelia Community Hospital & Clinic receives such wonderful support from our community; it is only fitting for the Foundation to give back through these scholarships. The Foundation also praised local donors for their generosity in establishing these scholarships. “These donors understand that our children are our future, and if we invest in their education, we will all reap the rewards,” said Cook. The Foundation hopes that the scholarships will inspire and encourage students to dedicate their lives to caring for others through the health care industry.

Applications packets are available online at www.mchospital.org/scholarships, at the counselor’s office at Madelia High School or Lake Crystal Wellcome Memorial High School, or at the Madelia Community Hospital & Clinic front desk. Please submit applications prior to 3 p.m. on Friday, April 17th, 2015. If anyone has questions call the Foundation office at 507.642.5224.

About Madelia Community Hospital & Clinic

Madelia Community Hospital & Clinic is a private, nonprofit facility staffed by a team of physicians and medical professionals that is profoundly committed to providing health care of the highest standards to Madelia and surrounding communities. As a 25-bed acute care hospital, we offer all the primary health services, such as medical/surgical, pediatric, emergency care and more. In 2011, we expanded our services to include a family medical clinic which provides adolescent health, geriatric health, men’s health, newborn health, pediatric health, preventative medicine and women’s health. Over the years, we have proactively responded to the changing demands within the health care system, which has ensured our ability to deliver up-to-date medical services, purchase advanced medical equipment, and provide complete and compassionate care to all who enter our facility.
