## **MCHC Conducts Community Health Needs Assessment Survey**

**Madelia, Minn.** - Adults who live in the 56062 zip code should have received a Community Health Needs Assessment survey in the mail recently from the Madelia Community Hospital & Clinic (MCHC). A survey was mailed to all Madelia households in an effort to get feedback on how to improve the health of residents in the Madelia community.

This survey is done only once every three years, so it is essential that community members respond by filling it out and mailing it in by October 25th. A postage-paid envelope has been provided for your convenience. Responses will help us plan for the programs and services that are most needed to improve the health of Madelia residents. The results of the survey will be published and posted on our website at: [www.mchospital.org](http://www.mchospital.org).

Participation in the survey is voluntary. All answers are strictly confidential; no names will be linked to the responses. Thank you for your participation!

### **About Madelia Community Hospital & Clinic**

Madelia Community Hospital & Clinic is a private, nonprofit facility staffed by a team of physicians and medical professionals that is profoundly committed to providing health care of the highest standards to Madelia and surrounding communities. As a 25-bed acute care hospital, we offer all the primary health services, such as medical/surgical, pediatric, emergency care and more. In 2011, we expanded our services to include a family medical clinic that provides adolescent health, geriatric health, men's health, newborn health, pediatric health, preventative medicine and women's health. Over the years, we have proactively responded to the changing demands within the health care system, which has ensured our ability to deliver up-to-date medical services, purchase advanced medical equipment, and provide complete and compassionate care to all who enter our facility.
